Index to Volume XII, September 1982 to May 1983

Journal of College Science Teaching

Author Index

Aldridge, Bill. *Who Is Addressing the Crisis?* November: 69. (Editorial)

Allen, Carolyn B. (See Bunce, Stanley)

Allen, Robert D. (See Moll, Michael B.)

Allen, Robert D. (See Statkiewicz, Walter R.)

Anbar, Michael. *The Evolvement of Life—A Thematic Course in the Biophysical Sciences.* December/January: 220.

Andrews, Sydney D. *Societal Effects of Increased Use of the Metric System.* September/October: 34.

Blaustein, Ernest H., Contributing Editor, *Books.* September/October: 48; November: 111; December/January: 229; February: 288; March/April: 354; May: 451.

Bloom, Walter R., and John Webb. *Work and Study Abroad—A Personal Account.* February: 252.

Blumberg, Avrom A. *A Course in Natural Science and National Security in the Nuclear Age.* March/April: 337.

Bork, Alfred. *University Learning Centers and Computer-Based Learning.* November: 81.

Breedlove, C.H., and John Softy. *The Explosive Potential of Tollens' Reagent.* February: 281.

Brooks, David W., Malcolm M. Renfrew, and Thomas J. Tipton. *Safety Training for Chemistry Laboratory Teaching Assistants.* December/January: 224.

Bunce, Stanley, and Carolyn B. Allen. *Chemistry for the Well-Prepared Student.* November: 86.

Carpenter, John R. *A Comparison of Student Attitudes, Values, and Interest Toward Two Earth Science Courses.* May: 441.

Cetera, Margaret M. *Laboratory Adaptations for Visually Impaired Students: Thirty Years in Review.* May: 384.

Chenier, Philip J., and Todd M. Johnson. *Programmed Study Aids for Solving Problems in Advanced Undergraduate Organic Chemistry.* September/October: 36.

Cherrington, Wilfred J. (See Stannard, Carl R.)

Clifford, Christine P. (See Clifford, John J.)

Clifford, John J., and Christine P. Clifford. *Developing Your Own Individualized Instruction: In-House Production of Super-8 Mediated Learning Packages.* September/October: 29. (ICII-1981)

Conway, John R. *Development of an Interim Biology Course in the Virgin Islands.* May: 399.

Cumming, Betty, and Colin McIntosh. *PSI in Engineering Mathematics.* September/October: 30. (ICII-1981)

Dolphin, Warren D. *What Is the Future of Individualized Instruction?* September/October: 18. (ICII-1981)

Dukes, Robert J., Jr. *Charleshenge—An Archeo-Astronomy Exercise for the Elementary Astronomy Lab.* November: 99.

Durch, William J. *The Nuclear Age—A Course Description.* March/April: 330.

Ehrlich, Robert. *Nuclear War—An Interdisciplinary Course at George Mason University.* March/April: 336.

Estee, Charles, R., Contributing Editor, *Society for College Science Teachers. Where Have the "C" Students Gone?* September/October: 58; *SCST and NSTA—Partners in a Common Cause.* November: 124; *Storm Days* December/January: 228; *Admission Requirements and Quality Education.* February: 287; *Seasonal Change.* March/April: 304; *Year's End.* May: 368.

Faber, Gary C., and Elizabeth M. Martin. *Chemistry Laboratory—A Self-Paced Project Approach with Traditional Experiments.* December/January: 222.

Federation of American Scientists. *Nuclear War Education Project.* March/April: 342.

Gelinas, Douglas, and Julian Haynes. *A Self-Paced, Variable-Credit, Individualized-Content Biology Course.* September/October: 25. (ICII-1981)

Gannon, John E. (See Haynes, James M.)

Gottschall, Carl W. *Science IS Experimental.* November: 77. (Point of View)

Gupta, Gian C. *An Undergraduate Environmental Science Curriculum.* November: 100.

Gwinn, John F. *Can You Afford Not to Individualize/Computerize?* September/October: 27. (ICII-1981)

Habowsky, J.E.J. (See Thomas, D. des S.)

Haynes, James M., Gary W. Thorburn, John E. Gannon. *Environmental Impact Assessment: Melding Classroom Instruction with Problem-Solving Experience.* May: 394.

Haynes, Julian. (See Gelinas, Douglas)

Hobson, Art. *Nuclear War and Science Teaching.* March/April: 332.

Hudson, H.T. (See Rottman, Ray M.)

International Student Pugwash. March/April: 341.

Jewett, John W., Jr., and Douglas Lessie. *Diversifying the Introductory Physics Laboratory.* February: 266.

Johnson, Todd M. (See Chenier, Philip J.)

Kalbus, Lee H., Kenneth A. Mantei, and Ralph H. Petrucci. *A Laboratory Demonstration of the Conservation of Energy.* February: 277.

Kamm, Steven D. *Tutoring with Microcomputers—A Project Report.* February: 279.

Kandel, Marjorie. *Suggestions for a Beginning Videotaper.* February: 269.

Kauffman, George B., Contributing Editor, *Abstracts.* September/October: 42; November: 107; December/January: 234; February: 291; March/April: 350; May: 458.

———. *The Misogynist Dinner of the American Chemical Society.* May: 381.

Kissinger, Paul B. (See Ricketts, John A.)

Larson, James H. *"Two Cultures" Topics for General Studies Science Courses.* November: 89.

Last, Arthur M. (See Webb, Michael J.)

Lees, A. Bryan. (See Winokur, Melvin)

Lessie, Douglas. (See Jewett, John W., Jr.)

Lestingi, Francis S., Contributing Editor, *Instructional Media.* September/October: 52; November: 115; December/January: 238; February: 295; March/April: 358; May: 455.

Maloney, David P. *Fill-In Problems.* November: 104.

Mantei, Kenneth A. (See Kalbus, Lee H.)

Martin, Elizabeth M. (See Faber, Gary C.)

McCurdy, Donald W., Contributing Editor, *National & Legislative View. The Federal Response to Declining Productivity.* December/January: 227; *Implications of the Manpower Problem for Science Education.* February: 293.

———. *Aggressive Leadership in Science Education: The Role of NSTA.* September/October: 15. (Editorial)

McIntosh, Colin. (See Cumming, Betty)

McMeekin, Dorothy. *The Use of Somerset Maugham's* Of Human Bondage *in a General Education Science Class.* September/October: 40.

Moll, Michael B., and Robert D. Allen. *Developing Critical Thinking Skills in Biology.* November: 95.

Moore, John A. *Physics et cetera for Poets et cetera?* December/January: 138.

Mullins, John A. *Probability and Early Protein Formation.* February: 276.

National Science Foundation. *Undergraduate Faculty Development in Science: A Report to the Congress by the National Science Foundation.* Executive Summary. November: 119; *Report of the National Science Board Commission on Precollege Education in Mathematics, Science, and Technology. March/April: 346. (National & Legislative View)*

Osterman, D.N. *Classroom Lecture Management: Increasing Individual Involvement and Learning in the Lecture Style.* September/October: 22. (ICII-1981)

Page, Thornton. *Astronomy with the Space Telescope.* February: 258.

Paldy, Lester G. *JCST* Editor. *Bracing for the Blow.* December/January: 135; *And Then They Came For Me: The Spoils System at the National Science Foundation.* February: 251; *Universities, the Arms Race, and National Security.* March/April: 303. (Editorials)

Perkins, Robert R. (See Webb, Michael J.)

Perry, Constance M. (See Schlenker, Richard M.)

Petrucci, Ralph H. (See Kalbus, Lee H.)

Poitras, Adrian W., Contributing Editor, *Equipment & New Products.* September: 60; November: 125; December/January: 241 February: 297; March/April: 361; May: 462.

Postlethwait, S.N. *Dare Greatly.* September/October: 19. (ICII-1981)

Rayner-Canham, Geoff. *Three Simple Descriptive Experiments for an Elementary Chemistry Course.* November: 103.

———. et al. (See Webb, Michael J.)

Remillard, Wilfred J. *Comparison of Grading Procedures.* May: 403.

Renfrew, Malcolm M. (See Brooks, David W.)

Richter, Erwin W., and Russell A. Wiley. *Electrolysis of Water from a Different Perspective.* May: 436.

Ricketts, John A., and Paul B. Kissinger. *STEP: A Science Education Program Emphasizing High School-College Cooperation.* November: 92.

Ringler, Dick. *The University of Wisconsin-Madison's Perspectives on Nuclear War—Goals, Organization, and Structure.* March/April: 322.

Rottman, Ray M., and H.T. Hudson. *Computer Grading As an Instructional Tool.* December/January: 152.

Ruskin, Robert S. *Individualized Instruction: An*

University Learning Centers and Computer-Based Learning. Alfred Bork. November: 81.
The University of Wisconsin-Madison's Perspectives on Nuclear War—Goals, Organization, and Structure. Dick Ringler. March/April: 322.
The Use of Somerset Maugham's Of Human Bondage *in a General Education Science Class.* Dorothy McMeekin. September/October: 40.
What Is the Future of Individualized Instruction? Warren D. Dolphin. September/October: 18. (ICII-1981)
Work and Study Abroad—A Personal Account. Walter R. Bloom and John Webb. February: 252.

Calendar

5–8 **National Educational Computing Conference** (NECC 83). Towson, MD. Doris K. Lidtke, General Chairman, NECC 83, Department of Mathematics and Computer Science, Towson State University, Baltimore, MD 21204.

11–16 **Rehabilitation Engineering Society of North America.** 6th Annual Conference on Rehabilitation Engineering. San Diego. Patricia Horner, RESNA, Executive Director, 4405 East-West Hwy., Suite 402, Bethesda, MD 20814. (301) 657-4142.

13–16 **"Making Education Grow with America (MEGA)."** Cosponsored by the Greater Louisville Foundation for Education & Work and The American Association for Career Education. Commonwealth Convention Center, Louisville, KY. Greater Louisville Foundation for Education & Work, P.O. Box 6405, Louisville, KY 40206.

15–17 **American Association of Physics Teachers.** Annual Summer Meeting. Memphis. A. A. Strassenburg, AAPT, Graduate Physics Building, SUNY-Stony Brook, Stony Brook, NY 11794.

19–23 **American Society for Engineering Education.** Annual Conference. John Lisack, ASEE, Eleven Dupont Circle, Suite 200, Washington, DC 20036.

20–22 **American Astronomical Society.** Minneapolis. Professor Arlo U. Landolt, Secretary, AAS, Louisiana State University, Box BK, LSU Observatory, Baton Rouge, LA 70803-4003.

20–22 **Cornell University, International Seminar.** "Misconceptions in Science and Mathematics." Ithaca, NY. Hugh Helm, Department of Education, Stone Hall, Cornell University, Ithaca, NY 14853. (607) 256-2267.

20–24 **Holography Workshop (I).** Lake Forest College. Lake Forest, IL. "Holography Workshops," Department of Physics. Lake Forest College, Lake Forest, IL 60045. *Remainder of the series to be held as follows: (I) July 4–9, (II) June 27–July 1, and (III) July 11–15.*

27–29 **Institute for Professional Development-Princeton.** "Microcomputers in Education '83." Princeton, NY. Mitchell Batoff, 245 Nassau St., Suite D., Princeton, NY. 08540. (609) 924-8333.

July

24–29 **American Association for Clinical Chemistry.** 35th Annual National Meeting. New York. Marjorie Hack, AACC, 355 St. Paul's Ave., Staten Island, NY 10304. (212) 981-0115.

August

8–12 **American Mathematical Society.** 87th Summer Meeting. Albany, NY. H. Hope Daly, AMS, P.O. Box 6248, Providence, RI 02940.

14–20 **Computers in Biology.** 3rd Annual Short-course Series at Notre Dame. Theodore Crovello, Biocomputing Shortcourses Coordinator, Department of Biology, University of Notre Dame, Notre Dame, IN 46556. (219) 239-7496.

30–Sept. 2 **American Solar Energy Society.** 7th National Passive Solar Conference. Knoxville, TN. Albert Henderson, ASES, 110 W. 34th St., New York, NY 10001.
